

Eunwoo Kim

Department of Psychology, Yonsei University, Seoul, Korea
Phone: +82-10-2701-8595 | E-mail: eunwookim@yonsei.ac.kr

RESEARCH INTERESTS

Cognitive Modeling (Reinforcement learning, Sequential sampling models), Model-based Cognitive Neuroscience, Machine Learning

EDUCATION

2026	M.S.	Psychology: Quantitative Psychology (PI: Inhan Kang) GPA 4.27/4.30	Yonsei University
2024	B.S. B.A.	Computer Science and Engineering Psychology GPA 4.06/4.30	Seoul National University

MANUSCRIPTS

- Development and Validation of a Reinforcement Learning Sequential Sampling Model for Addictive Behavior
Eunwoo Kim, Inhan Kang *Under Review*
- Predicting Fertility Desires Among Premarital Couples: An Interpretable Machine Learning Approach Using Dyadic Data
Eunwoo Kim*, Hyoungbin Moon*, Young-Hoon Kim, Inhan Kang *Manuscript in preparation*

ONGOING PROJECT

- Joint Modeling of Behavioral and Neural Data via Lasso Factor-Analytic Neural Diffusion Decision Models: Reward-Modulated Recognition Memory
Eunwoo Kim*, Seoyoung Choi*, Sungwoo An, Sanghoon Han, Inhan Kang *Data analysis in progress*

CONFERENCE PRESENTATIONS

Development and Validation of a Reinforcement Learning Sequential Sampling Model for Addictive Behavior

- International Meeting of the Psychometric Society (IMPS), Oral presentation Jul. 2026
- Conference of the Korean Society of Psychological Measurement and Assessment, Oral presentation Oct. 2025
- Annual Conference of the Korean Psychological Association, Poster presentation Aug. 2025

Joint Modeling of Behavioral and Neural Data via Lasso Factor-Analytic Neural Diffusion Decision Models: Reward-Modulated Recognition Memory

- Annual Meeting of the Korean Society for Computational Neuroscience (CBrain), Poster presentation Sep. 2026

HONORS AND AWARDS

- Future Psychologist Award, Korean Psychological Association 2025
- Summa Cum Laude, Department of Psychology, Seoul National University 2024

FELLOWSHIPS AND GRANTS

- Graduate Idea Incubating Fellowship (IIF), Yonsei University (\$1,500) 2026
- Graduate Student Research Assistantship Scholarship, Yonsei University 2025–2026
- Teaching Assistant Scholarship, Yonsei University 2024–2025

* These authors contributed equally to this work.

RESEARCH EXPERIENCES

Lab Manager

Sep.–Dec. 2025

Psychometric & Computational Modeling Laboratory (PI: Inhan Kang), *Yonsei University*

- Implemented a PsychoPy survey task designed for RT measurement, controlling mouse-to-response distance across items
- Recruited participants, conducted experimental sessions, and administered participant compensation

Research Assistant

Feb.–Aug. 2024

Connectome Laboratory (PI: Jiok Cha), *Seoul National University*

- Led an independent project applying Generalized Random Forests to estimate heterogeneous treatment effects of COVID-19-related variables on well-being
- Collaborated with Center of Happiness Studies, Seoul National University, which provided the dataset, and jointly interpreted the results

Research Assistant

Jan.–Dec. 2023

Quantitative Research Collaboratory Laboratory (PI: Amanda K. Montoya),
University of California, Los Angeles

- Conducted literature reviews for projects on tree-based machine learning methods in psychology, SPSS/SAS mediation/moderation macro, and a registered-reports survey study
- Assisted with survey administration for the registered-reports project
- Served as an independent analyst in a many-analysts-style project examining variability across independent analyses of the same dataset

Research Assistant

Aug.–Dec. 2022

Computational Clinical Science Laboratory (PI: Woo-Young Ahn), *Seoul National University*

- Contributed data visualization code to a project analyzing orthogonal go/no-go task data
- Participated in a weekly literature study group on decision-making and computational methods

TEACHING EXPERIENCES

Teaching Assistant

- | | |
|--|-------------|
| • Bayesian Statistics for Psychology (Graduate) | Fall 2025 |
| • Psychological Statistics (Undergraduate) | Spring 2025 |
| • Data Science for Analysis of Human Behavior and Psychology (Undergraduate) | Fall 2024 |

SELECTED COURSEWORK

Psychology/Neuroscience – Advanced cognitive science, Seminar in Quantitative Psychology, Seminar in Experimental Psychology, Psychometrics, Neuroimaging, Neuroscience

Statistics – Mathematical statistics, Linear model, Machine learning theory and application, Generalized mixed models for data science, Structural equation modeling, Linear algebra

SKILL SET

Statistical Software – R, Matlab / **Bayesian** – Stan·Rstan, hBayesDM / **Programming** – Python, C, Java
